Polidomes International Sp.z o.o.

ul. Jedności Narodowej 22c

78-100 Kołobrzeg

EU NIP: PL 6711823578

Welcome,

Thank you for your interest in Polidome's offer of Polidomes Geodesic Glamping tents

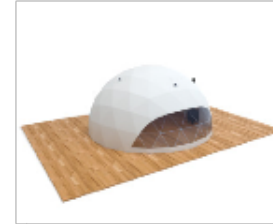

Polidomes has been operating since 2010 and specializes in welding of thermoplastic materials and production of steel and spherical structures. Our team of experts continually expand their experience and expertise in line with the latest technologies and materials. We manufacture tents in Świebodzin, a city approximately 80 km from the German border. We are a Polish based (EU) company and provide delivery and assembly services worldwide. Since 2018, we are also registered in Atlanta, GA, USA, where we have a constantly expanding warehouse of structures available for rent and sale.

We strive for quality and lasting results and can proudly boast that our products are recognized and successfully used worldwide by a wide range of prestigious clients. We have implemented hundreds of events and permanent projects in over 30 countries. Our all-weather, built-to-last tents can be found in places as varied as Japan, Madagascar, Iceland and Australia.

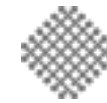

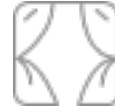

We specialize in construction, design and delivery of the highest quality, completely customizable, PVC covers of all sizes. Our structures are supported by hot-dipped galvanized steel and built to last. We pay attention to detail and adapt to the size and need of each individual order. We are committed to excellence, service and customer satisfaction - as evidenced by our many satisfied clients.

We are also experienced at implementing comprehensive projects including the planning, designing, production and delivery of objects such as hotel complexes, glamping resorts and retreats.

Please familiarize yourself with our offer!
